

**ASAP**  
Adapt Solutions, Adopt Practicality

## > About Us :

ASAP is a leading provider of speciality Oilfield Services & Supplies.

We offer cutting edge solutions tailored to customer requirement.

- Only Indian company to successfully executed jobs in Onland, Offshore including Deep Water.
- Only Non Major service Company to have successfully completed LSTK wells.
- Highest single contract valued at USD 25 million.

## > QHSE Commitments :

At ASAP Fluids, we are proud of our impeccable safety record which is a result of the culture across the organisation. Every member of Team ASAP is committed to the continuous improvement of environmental, health and safety performance to help achieve the greatest benefit for all our customers, communities and employees.

## ► Core Competencies :

ASAP offers host of professional services to Oil & Gas Operators. Inhouse skills & facility exist for providing these services to our clients.

## ► Integrated Oilfield Services which includes as listed below :

- Drilling & Workover Rig Services
- Drilling Fluid Services & Supply of Chemicals
- Casing & Cementing Services
- Fishing Services
- Coring Services
- Hydraulic Fracturing
- E-line Logging & Perforation Services
- Tubing Conveyed Perforation (TCP) Services
- Slickline

## ○ Benefits to go for Integrated / LSTK Services :

- De-risking
- Reducing Operating Cost of E & P Company
- Increase Operating Efficiency
- Capping AFE for Each Well
- Assuring the Results
- End to End Solutions

## ► Mud Engineering Services :

- Deep Water
- Overseas Experience
- HPHT Wells

### ● Mud System Successfully Delivered :

- Polymer KCl Glycol Based Inhibited Fluid
- High Performance Water Based Fluid
- Non Damaging Polymer Fluid
- Reservoir Drill - In Fluid
- High Temperature Reservoir Drill - In Fluid (350°F)
- HTHP Polymer Fluid (> 400°F)
- Non-Damaging Non-Aqueous Fluid
- Flat Rheology NAF for ERD Well
- Low Density NAF for Sub - hydrostatic Wells
- Specialist LCM Solutions

### ● R & D Capabilities :

Dedicated R & D Centre capable of testing all types of fluids including HPHT, Shale, Reservoir Damage for customized solutions as per individual well requirements.

- HPHT Viscometer
- Dynamic HPHT Filter Press
- Laser Particle Analyzer
- EP Lubricity Tester
- Core Testing
- Linear Swell Meter
- Gas Chromatograph
- Consistometer

## ► Solid Control & Drilling Waste Management Services :

ASAP offers a Complete Range of Solid Controls & Drilling Waste Management Services :

- **Shakers**
- **Cutting Dryers**
- **Centrifuges**
- **Mud Coolers**
- **De-sanders**
- **Rig Vacuum Systems**
- **Mud Cleaners**
- **Drilling Waste Water Treatment**

Our integrated portfolio of cutting - edge solid controls technique is engineered to optimize drilling efficiencies by reducing fluid losses, HSE impact & costs.

## ► Tank Cleaning Services :

### ○ Oil Storage Tank Services

- **Desludging**
- **Cleaning**
- **Oil Recovery**
- **Repairs**

- Performing Desludging and Cleaning of Storage Tanks and Vessels.
- We are capable to offer All Services and Equipment to perform these tasks in a Safe & Competent Manner.

### ○ Our Technology :

In addition to the traditional manual methods of Sludge Removal, ASAP has invested in NEW TECHNOLOGY which allows the Client the opportunity to recover the oil entrapped in the sludge.

The benefits of utilizing the NEW TECHNOLOGY are many :

- **Safely and easily deal with sludge over the manway.**
- **Non-man entry cleaning.**
- **Eliminates sludge and reclaims usable hydrocarbon in your crude oil storage tanks, without removing your tank from service.**
- **International tie-up in place.**

## ► Wellbore Clean-Up Services :

ASAP offers a Complete Range of Wellbore Clean Out Tools for Offshore, Deepwater and Onshore Wells.

The list of tools includes :

- **Casing Scrappers**
- **Riser Cleaning Brushes**
- **Magnets**
- **Inflow Test Packers**
- **Circulating Tools Etc**

- We offer customized clean out packages with complete software support & clean out chemicals.
- ASAP have experts to run and service / redress the tools. With a ready stock of all consumables we can ensure clean wellbore to maximize production and life of tubulars.
- International collaboration in place.

## ► Supplies :

ASAP has successful track record for supplies of :

- **Drilling Fluid Chemicals**
- **Coil Tubing Reels**
- **Casing Centralizers**
- **Retrievable Hydraulic Packers with Accessories**
- **Sand Screens**
- **Other Oilfield Tangibles**

## ➤ Brine Filtration Services :

Brine filtration aids in maximizing reservoir production by delivering solids free non damaging completion fluids. ASAP provides a complete range of filtration options from sub hydrostatic to the most complex heavy brines. ASAP has a toll manufacturing tie up with a maker of Polypropylene pleated cartridges and bags.

The Brines can be filtered to 1 micron using :

- **DE Filters :**
  - For coarse filtration of heavy brines
- **Bag Filters :**
  - For coarse filtration of low density brines
- **Cartridge Filters :**
  - For polishing to required NTU
- **Vertical Pressure Leaf Filter**

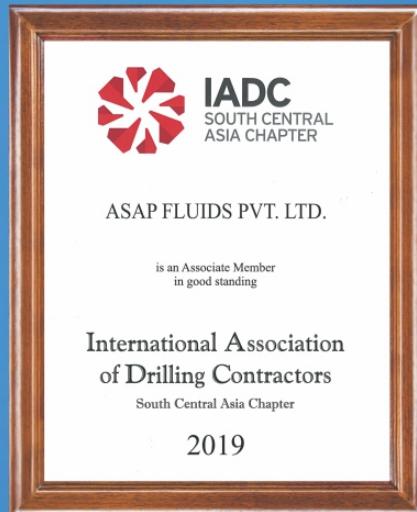

## ➤ Industry Training :

ASAP Fluids is offering hands-on drilling fluids course that is designed to teach both the theory and practice of the design, decision-making processes and the use of mud in the planning and implementation of drilling programs. Beginner and Advanced Mud School courses are going to be taught in Mumbai, India.

Courses offered include....

- **Introduction**
- **Refresher**
- **Advanced**
- **Basic for Non-technical Personnel**
